CAREER OBJECTIVE

As a career changer with a strong foundation in problem-solving and analytical thinking, I am deeply passionate about transitioning into a computer science role to design and develop innovative solutions. My recent hands-on experiences in AI development, backend programming, and software deployment have fueled my interest in building scalable, impactful systems. I am eager to leverage my growing expertise in Python, cloud technologies, and semantic search to contribute to cutting-edge projects, while continuing to enhance my technical skills in a collaborative and forward-thinking environment.

EDUCATION

Master of Computing and Innovation

University of Adelaide | GPA: 6.83/7 | Graduated: December 2024

Bachelor of Medicine and Bachelor of Surgery

University of Malaya, Kuala Lumpur, Malaysia | Graduated: May 2014

RELEVANT WORK EXPERIENCE

Software Development Intern

YourAnswer International Pty Ltd, Adelaide | Jul – Oct 2024

- Designed and developed automation software to evaluate semantic search performance, improving efficiency for future experimentation.
- Researched embedding models, vector stores, and chunking methods, applying systematic problem-solving to enhance semantic search performance.
- Identified an error in the company's core code during experimentation and suggested a correction, leading to a 10% improvement in search accuracy.
- Produced comprehensive documentation and delivered findings in presentations to ensure seamless knowledge transfer.

Industry Project Intern

Connecting Up (powered by Infoxchange), Adelaide | Mar – Jun 2024

<https://sacommunity.org/node/1181>, <https://sacommunity.org/node/1202>

- Served as the main contributor to the backend development of an AI chatbot, enhancing website's database search functionality with approximately 15,000 data of not-for-profit organizations.
- Integrated the LangChain Python toolkit into the chatbot, enabling it to process user queries, extract keywords using a large language model, perform semantic searches, and deliver accurate and relevant answers using large language model.
- Collaborated effectively within a team of four, achieving project milestones and delivering a functional AI chatbot that improved search accuracy and successfully interpreted vague user queries, offering helpful suggestions.
- Deployed the chatbot using Docker to mitigate compatibility issues caused by the website's outdated software environment.

Summer Research Project Scholarship Intern

Australian Institute of Machine Learning (AIML), Adelaide | Dec 2023 – Feb 2024

- Partnered with healthcare professionals to explore AI-driven insights, showcasing cross-disciplinary collaboration.
 - Analysed a dataset of 6,000+ cardiac surgery patients, applying machine learning models to predict clinical outcomes.
-

SKILLS

Programming Languages:

- Proficient in Python: Solid understanding of Object-Oriented Programming, algorithms, and data structures; specialization in AI/data libraries (pandas, TensorFlow, LangChain).
- Exposure to C/C++, SQL, and debugging through academic coursework.

Tools & Platforms:

- Backend Development: Docker, GitHub, OpenSearch.
- Frontend Development: HTML, CSS, JavaScript (basic exposure).
- Familiar with cloud platforms such as Microsoft Databricks and Dynamics 365 (MB-910 Certified).

Languages: Fluent in English and Chinese; professional proficiency in Malay.

EXTRACURRICULAR ACTIVITIES

Professional Development

Women in STEM Careers Program (WiSC)

University of Adelaide | Mar – Oct 2024

- Completed a competitive year-long program aimed at empowering women in STEM fields through workshops on emotional intelligence, leadership, and professional branding.

Global IQ Connect Program

University of Adelaide | May – Jun 2023

- Participated in an interactive 5-week program focusing on Cultural Intelligence (CQ) to navigate and collaborate in multicultural professional settings.
- Improved adaptability and cross-cultural understanding to thrive in globally connected environments.

Tech Start Program

Akkodis Tech Academy | Aug – Oct 2023

- Successfully completed an intensive bootcamp specializing in Microsoft Dynamics 365, gaining practical skills in its application.

Volunteer Experience

Volunteer

RSPCA SA | Jun 2023 – Present

- Dedicated over 200 hours to providing care for shelter animals and creating a welcoming environment for visitors.
- Assisted visitors in finding suitable adoptions through clear communication and rapport building.

Volunteer

Adelaide Botanic Garden | Jul 2023 – Present

- Supported horticulturists with regular garden maintenance tasks, demonstrating collaboration and attention to detail.

PASS Leader

University of Adelaide | Jul – Oct 2023

- Mentored peers in Python programming, providing guidance and support to enhance their learning experience.
-

AWARDS

Adelaide Graduate Award

University of Adelaide | 2024

- Recognized for outstanding development of employability skills through active participation in extracurricular activities.
